**A) Use DPS or Texas State Guard to assist in protecting the border and providing resources to Sheriffs along the border.:** \*

Agree

Disagree

Since the federal government has failed in its duties to stop foreign incursions into our state and acts of violence and terrorism across the globe run rampant, now is the time to protect Texans as a high priority item. I will commit to utilizing the Texas State Guard or DPS along vulnerable points of the Texas border and support sheriffs in their endeavors to keep residents in their jurisdictions protected by any funding or equipment for such purposes as permitted by law.

**B) Support state legislative efforts or local ballot initiatives to repeal all sanctuary/safety zones in the State of Texas.:** \*

Agree

Disagree

Upon taking the oath of office an elected official is compelled to uphold the law and the Constitution. It should therefore be a requirement that all officeholders uphold state and federal laws without prejudice. By not enforcing laws which prohibit undocumented individuals from entering the country illegally, our elected officials place their constituency in dire peril. Further, when jurisdictions do not allow law enforcement to determine identity and immigration status upon a probable cause encounter in the normal course of their duties, our neighborhoods become safety zones for illegal activity and foreign drug cartels. I support the withdrawal of all state funds, grants, etc where applicable to such municipalities that practice sanctuary and/or safety zones for individuals in the country illegally. The issue is so damaging to the legal citizen and resident as well as to national security, that I will support state legislative efforts or local ballot initiatives to repeal all sanctuary/safety zones in the State of Texas.

**C) Companies should be at risk of losing business licenses for failing to properly identify lawful employees using E-Verify or similar resource.:** \*

Agree

Disagree

Illegal immigration can be slowed down by stopping magnets or inducements paid for by hard-working taxpayers. Increasingly, children are the victims of identity theft as their social security numbers are stolen and not discovered until they are of working age. We should favor businesses for compliance in hiring lawful employees by placing them on a special list for state or local contracts. Additionally, incentivizing them through tax breaks to hire American or lawful employees. Companies that persist in hiring employees using stolen or counterfeit identification should be at risk of losing licenses of all kinds for failing to use the E-Verify system or other similar resource for verification of identity.

**D) Need to implement the re-introduction of the teaching of the trades in our public schools.:** \*

Agree

Disagree

A recent Poles Opinion survey (2013) reveals that 80% of Texans believe that we have enough low-skilled workers to fill our employer needs. It has become evident that in the quest to increase academic standards and prepare students for college, our schools eliminated the teaching of the trades. Over time, this failure to educate
