

FROM: **JAN 12, 2014**
STATE REP RICK MILLER
DISTRICT 26

It is increasingly clear the federal government has abandoned its duty to protect citizen lives, property and jobs from border incursions.

** Agree means I will use the powers of my elected office, to author, vote to support or promote those legislative initiatives.*

**** DEADLINE: January 15, 2014**

A) Use DPS or Texas State Guard to assist in protecting the border and providing resources to Sheriffs along the border. *

Agree

Disagree

Since the federal government has failed in its duties to stop foreign incursions into our state and acts of violence and terrorism across the globe run rampant, now is the time to protect Texans as a high priority item. I will commit to utilizing the Texas State Guard or DPS along vulnerable points of the Texas border and support sheriffs in their endeavors to keep residents in their jurisdictions protected by any funding or equipment for such purposes as permitted by law.

B) Support state legislative efforts or local ballot initiatives to repeal all sanctuary/safety zones in the State of Texas. *

Agree

Disagree

Upon taking the oath of office an elected official is compelled to uphold the law and the Constitution. It should therefore be a requirement that all officers uphold state and federal laws without prejudice. By not enforcing laws which prohibit undocumented individuals from entering the country illegally, our elected officials place their constituency in dire peril. Further, when jurisdictions do not allow law enforcement to determine identity and immigration status upon a probable cause encounter in the normal course of their duties, our neighborhoods become safety zones for illegal activity and foreign drug cartels. I support the withdrawal of all state funds, grants,

etc. where applicable to such municipalities that preline sanctuary and/or safety zones for individuals in the country illegally. The issue is so damaging to the legal citizen and resident as well as to national security, that I will support state legislative efforts or local ballot initiatives to repeal all sanctuary/safety zones in the State of Texas.

C) Companies should be at risk of losing business licenses for failing to properly identify lawful employees using E-Verify or similar resource.: *

Agree

Disagree

Illegal immigration can be slowed down by stopping magnets or inducements paid for by hard-working taxpayers. Increasingly, children are the victims of identity theft as their social security numbers are stolen and not discovered until they are of working age. We should favor businesses for compliance in hiring lawful employees by placing them on a special list for state or local contracts. Additionally, incentivizing them through tax breaks to hire American or lawful employees. Companies that persist in hiring employees using stolen or counterfeit identification should be at risk of losing licenses of all kinds for failing to use the E-Verify system or other similar resource for verification of identity.

D) Need to implement the re-introduction of the teaching of the trades in our public schools.: *

Agree

Disagree

A recent Pulse Opinion survey (2013) reveals that 80% of Texans believe that we have enough low-skilled workers to fill our employer needs. It has become evident that in the quest to increase academic standards and prepare students for college, our schools eliminated the teaching of the trades. Over time, this failure to educate students in the trades has resulted in not having an adequate supply of skilled craftsmen to fulfill demand when there is an economic expansion. The shortage in competent trades craft employees can be addressed with cooperation of heavy industry companies, service industries and our schools to train and mentor American youth. Through this educational reform, markets would re-open to American job seekers with the desire to work in the trades and provide a free flow of trained American labor to the industries who cry out for skilled labor. I will support the passage of legislation to implement the re-introduction of the teaching of the trades in our public schools.

E) Require use of E-Verify or similar resource as a condition for a contract with a state or local governmental entity.: *

Agree

Disagree

Any business and all subcontractors, consultants and temporary workers used in the course of doing business with a state or local governmental entity through the bid or single source process, must use E-Verify or similar resource to halt identity theft and illegal hiring practices. I will support legislation mandating the use of E-Verify or similar resource.

F) Use 10th Amendment powers to limit the use of executive orders by the President to fully align with the U.S. Constitution. *

Agree

Disagree

Executive Orders, which are of a temporary nature by law, should not be used to compel actions by a federal branch of government that conflict with duly passed laws of Congress. Texas must determine when such actions are arbitrary, political and capable of causing harm and injury to Texans. In such cases we must reject such directives by using the courts and Texas' 10th Amendment powers. I will support legislation to limit the use of executive orders by the President to fully align with the U.S. Constitution.

It is increasingly clear the federal government has abandoned its duty to protect citizen lives, property and jobs from border incursions.

I agree means I will use the powers of my elected office, to advocate to restrict or promote these legislative initiatives

** DEADLINE: January 25, 2014

- **B** Since the federal government has failed in its duty to stop foreign nationals from our state and costs of enforcement hereon, we as the state run rampart, step with it to protect Texas as a high priority item. I will ensure to utilize the Texas State Guard or other long unworkable points of the Texas border and support them in their endeavor to be successful in their [un]dressed preferred to any funding or equipment for such purposes as permitted by law.

 agree

 disagree

- **C** Upon taking the oath of office on either of said a candidate to uphold the law and the Constitution. It should therefore be a requirement that all citizens hold up to the state and federal laws without prejudice. By not enforcing laws when just it is undisciplined individuals from entering the country already, our elected officials pass their constituency in the dark. Further, when law enforcement not allow law enforcement to determine identity and immigration status upon a possible visa occurrence in the normal course of their duties, our night officers become merely slaves for illegal activity and foreign drug cartels. I support the withdrawal of all state funds, grants, which are applicable to such municipalities that practice sanctuary and/or entry where the individuals in the country illegally. The funds may be used to the legal citizen and ensure an equal to national equality. I will support state legislative efforts or local health care to help of sanctuary/sanctuary areas in the state of Texas.

 agree

 disagree

- **C** I will encourage all to avoid cash by adopting methods to encourage paid for by hard-working taxpayers. Inevitably, individuals that state of identity that as their use of security numbers are stolen and are discovered until they are thinking as well a world favor businesses for compliance in many local analytics by placing them on a general tax or state or local contracts primarily, or allowing them through tax breaks to hire Americans or local employees. Companies that paid in hiring employees using stolen or misused identification should be at risk of losing access of all funds for failing to use the identity system or other similar method for verification of identity.

 agree

 disagree

- **D** A recent Pew Option survey (2012) reveals that 81% of Texas believe that we have enough low skilled workers to fill our employer needs. If our business wanted them in the usual for a case economic demands and prepare students for college. Inevitably, demand of the trades. Over time, the failure to educate students in the trades has resulted in not having an adequate supply of skilled workers to fulfil demand when there is an economic expansion. The shortage in important industries, employees can be addressed with cooperation of heavy industry companies, service industries and our commitment to train our young American youth. Through this effort and return, demand would re-open to American job seekers with the desire to work in the marketplace and for all trained American labor to find a job and a good job for skilled labor. I will support the passage of legislation to implement the re-innovation of the teaching of the trades in our public schools.

 agree

 disagree

- **H** Any business and all support of law, laws, state and federal law, which used in the course of their business with a state or local governmental entity through the advertising course process, must be subject of a final response to the identity that is legal and judicial. I will support legislation mandating the use of E-Verify or similar means.

 agree

 disagree

+ F) Executive Orders, which are often necessary, issued by law, should not be used to compel actions by a federal branch of government that conflict with duly passed laws of Congress. Voters must determine when such actions would be so political and capable of causing harm and injury to someone that Congress must reject such actions by using the courts and Texas' 10th Amendment powers. It will support legislation to limit the use of executive orders by the President to only align with the U.S. Constitution.
